War Department Abandons Idea of Bringin & Certain Regiments From the Islan s-Authori-

Among the officials at the War Departfrom Manila that General Chaffee fears at any time a general uprising of natives. Notwithstanding the apparent quietude prevailing for the past few months, with ists to withdraw their support from the occasional outbreaks at isolated places in the archipelago, General Chaffee thoroughly realizes the possibility of once again having to contend with organized esistance to American supremacy. The War Department had been made cognizant

of this probable centingency. With the exception of General Corbin all the general officers of the army on duty at the War Department who recently visited the Philippines returned immediately, but with the belief that the feeling of unfriendliness between the Americans and the Filipinos was becoming stronger, rather than decreasing.

As a result of General Chaffee's confidential reports and information obtained personally by Secretary Root from army officers recently returned from the Philany reduction in forces now under Gen-

CHICAGO, Dec. 17.—Every baby born in Chicago and Cook county after January met her death. 1 will be worth 25 cents to the doctor or doting parent who reports the occurrence to the county clerk. The baby may be worth more than that to the parent, but that is the amount of the bounty offered

Under the provisions of a bill passed by the last general assembly it is made the duty of physicians to report all births Cabinet change rumor to the surface. This to the county clerk, and if the doctors fail to claim the reward for discovering the infant, then the parent may come in and General Clarkson will become head of and secure the "prize money."

Old residents of Illinois remember the time when bounties were offered by the State for wolf scalps, but none can remember a time when the large sum of 25 cents was offered for babies.
